CD-1 SuperSpeedway

CD-1™ Super Speedway ignition system is a complete plug and play capacitive discharge ignition system that has been designed for professional Late Model Asphalt and Dirt racers.

- 135 mj spark energy output
- 9900 Maximum RPM Limit in 100 RPM Steps
- Fully encapsulated construction. 12 pin connector used for signal connections
- All wiring terminated into **plug and play** weatherpack connectors
- Compatible With **8-Cylinder Racing Engines** Triggered by A Magnetic Pickup Distributor Or Four Magnet Crank Trigger
- Designed & Assembled **in the USA**
- Approved ignition system for these race series: **ACT Series, Southern Super Series, Cars Super Late Model Tour, and Spears Southwest Tour Series**

CD-1 Full Race Ignition

CD-1™ FULL RACE Ignition Kit is a complete capacitive discharge ignition system (includes CD-1™ Coil). Easy to install and configure, it is perfect for ALL for 4-6-8 cylinder race engines that utilize a distributor. Street/Strip, Circle Track (Asphalt & Dirt), Road Race, Pulling and ALL other racing applications.

- Includes ALL popular ignition features
- Programmable Inputs: Three Step (Burnout, Launch and Max Rpm Limits), High Gear Timing Retard, Nitrous Retard or Build Your Own Timing Curve vs Boost or RPM
- Outputs can be programmed as a RPM Window Switch (Nitrous) or Shift Light
- Simple to configure with our easy to navigate software (windows)
- 10,900 Maximum RPM Limit in 100 RPM Steps

CD-1 Marine Ignition

Our CD1™ Marine Ignition has been setting records and winning offshore racing championships since 2010. The system includes our CD-1™ Marine Coil and is easy to install and simple to configure. It is perfect for ALL marine engines that utilize a distributor.

- Exclusive Idle Stabilization Feature
- Easy to configure cranking ignition timing retard
- Built in advance curves for Mercury® Marine Engines
- 9900 Maximum RPM Limit in 100 RPM Steps
- NNMA™, USCG™, ISO™ and SAE® Certified
- Shock resistant, waterproof construction

PROFESSIONAL IGNITION SYSTEMS APPLICATIONS

CD-1 Super/Speedway 6000 SERIES

- 6000-6701B.....CD-1 Super Speedway Ignition Box only
- 6000-6701C.....CD-1 Super Speedway Ignition Coil
- 6000-6701FTC.....CD-1 Super Speedway Fast Test Cable
- 6000-6701K.....CD-1 Super Speedway Ignition System complete Kit Mounted on plate
- 6000-6701P.....CD-1 Super Speedway plate only
- 6000-6701W.....CD-1 Super Speedway Complete Wiring

CD-1 Full Race Ignition 102 SERIES

- 102001.....CD-1 Ignition Module only (requires use of coil P/N 102002)
- 102002.....CD-1 Ignition Coil
- 102003.....CD-1 Capacitive Discharge Ignition System Kit
- **NEW** 102003A.....CD-1 Capacitive Discharge Ignition System Kit - w/o USB
- 102004.....USB Interface with 6 foot USB Cable
- 102005.....RTD-1 Retard Control
- 115012.....2 Bar MAP Sensor (15psi)
- 115013.....3 Bar MAP Sensor (30psi)
- 102006.....MAP Sensor Wire harness (Map Sensor to CD-1)

CD-1 Marine Ignition 103 SERIES

- 103001.....CD-1 Marine Ignition Module only (requires use of coil P/N 103002)
- 103002.....CD-1 Marine Ignition Coil
- 103003.....CD-1 Marine Capacitive Discharge Ignition System Kit
- **NEW** 103003A.....CD-1 Marine Capacitive Discharge Ignition System Kit - w/o USB

CD-1 Pro 104 SERIES

- 104003.....CD-1 Sportsman Classes Capacitive Discharge Ignition System (without data logging)
- **NEW** 104003A.....CD-1 NHRA Sportsman Class Ignition System w/o data logging w/o USB
